

My Video Work

Over the past few years, I've worked on a range of video projects—some behind the scenes as an editor, and others where I also featured on camera. My focus has been on **clear storytelling**, **clean transitions**, and aligning visuals with the **brand's tone and message**. Whether it's scripting, editing, or participating in the creative process, I enjoy shaping content that not only looks good but feels intentional.

Below are a few sample videos I've worked on—either as the **editor**, **content creator**, or **on-screen contributor**:
